

## Alexander Hughes Board Services Survey – May 2023

Peter Dolan and Jean-Marie Simon, respectively head and co-head of the Board Services practice supervised in May 2023 a market survey with a leading International Business School with the aim of gaining a better understanding of the different dynamics of Boards.

This survey of a wide panel of CAC 40, SBF 120 and Family-owned companies highlighted the acceptance of ESG strategy and its impact on objectives, business processes & Executive compensation policy across all segments.

Detailed questionnaires and interviews with board members demonstrated the importance of CSR and Human Capital policies.

The survey also focused on Cybersecurity: Boards of all sizes of companies consider that more resources should be dedicated to growing threats of cyberattack or data breach. The main conclusion is that too many smaller companies are still lagging with cybersecurity implementation.
